

Memorandum ATS103

04 January 2021

Addendum for the DGR 62nd edition

Sub-heading if required

Dear ATS Partners,

Greeting from Montreal!

Following the issuance of an addendum to the 2021-2022 edition of the ICAO Technical Instructions, attached is the addendum to the 62nd edition of the DGR. The ICAO addendum includes:

- the addition of an allowance for operators to carry onboard an aircraft alcohol-based hand sanitizers and cleaning products (DGR 2.5);
- removal from the provisions of the regulations COVID-19 vaccines containing GMO or GMMO (DGR 3.9.2.5); and
- addition of special provision A220 to exempt packages containing COVID-19 vaccines accompanied by data loggers and/or cargo tracking devices from the need to bear the lithium battery mark.

In addition, the IATA addendum includes new and revised State and operator variations and corrections to the 62nd edition of the DGR.

This addendum along with the language versions will be posted on the IATA website next week.

If you require further information or clarification, please feel free to reach us through our Customer Service at the [IATA Customer Portal](https://www.iata.org/customer-service).
